CORPORATE SERVICES

- Scenic & Staging
- Audio & Video
- Event Lighting
- Labor Sourcing
- Project Management

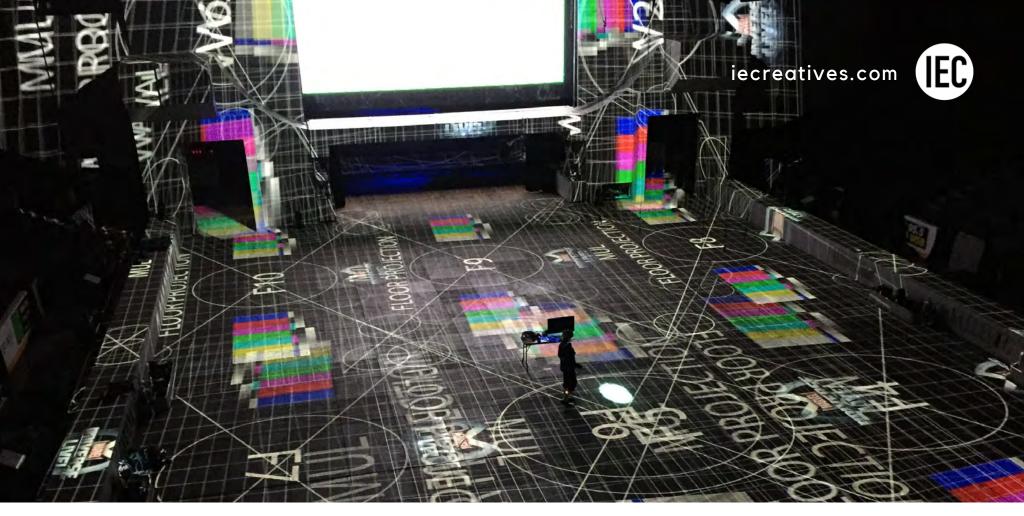

SCENIC & Staging We take an open approach to scenic install & design. We work closely with clients to understand what elements are needed, acquire what we can, then let our creative team do what's necessary to fabricate the rest. Conference speaker platforms, custom fashion runways, live music stages, and other general staging is available upon request.

AUDIO & VIDEO

We can accommodate audio & video management for most corporate events and conferences, as well as the majority of live music concerts. Professional audio/video labor contractors & technicians are available for hire as well.

PROJECTION MAPPING & BLENDING

We can accommodate audio & video management for most corporate events and conferences, as well as the majority of live music concerts. Professional audio/video labor contractors & technicians are available for hire as well.

Whether it's a conference or a rock concert, we provide high end professional services as well as unconventional creative lighting solutions.

LABOR

We like to keep our hard working artists and technicians consistently booked for fair wages, so whenever you need an extra hand for your event or production, we can provide reliable contractors, or references, to assure your labor needs are met with respectable excellence.

Strategy & Consulting -Fabrications & Installations -Experience Design & Entertainment -

GREATIVE SERVICES

We offer creative consulting services for live event productions from concept to completion. Our versatile background as artists in a variety of live event industries gives us a uniquely competitive edge in the event & experience design markets of today. We provide full time strategy to clients looking to better produce their events as well as A La Carte style consulting services to those needing less support or with smaller budgets.

Our creative team is always working on new installation artworks and towards innovating new types of interactive experiences that are possible. We provide design & fabrication services for new pieces as well as the installation labor to make sure all safety concerns are properly addressed.

EXPERIENCE DESIGN & ENTERTAINMENT

PMENTCOM

211

Our methods assure all facets of an event are carefully considered in order to optimize the experience as well as streamline the production. With a focus on quality & ethics, we maintain a highly selective team of contractors that are extremely skilled artists, makers, technicians, and a variety of other creative professionals to offer the best services possible.

INSTALLATION CATALOGUE

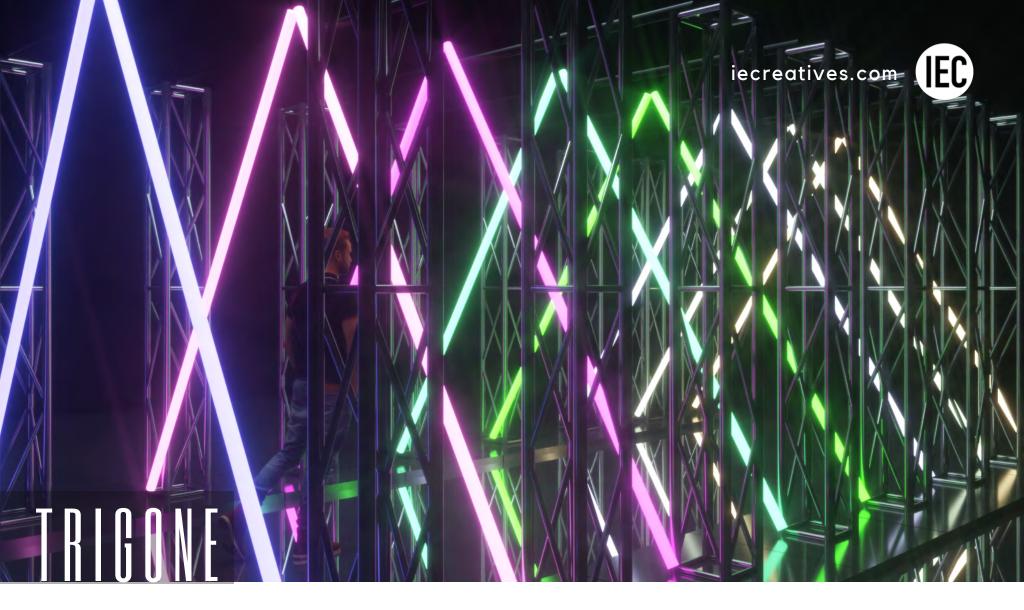

A brief overview of the most recent additions to our in-house art installations

A seven foot tall triangular prism constructed from holographic panels with specially designed content that provides a unique sensory experience. Installation available as a standalone piece or with added guest interactivity elements.

A visually hypnotic experience that can be scaled to fit any space and customized for the occasion. Installation available with custom content loops and/or interactive elements so guests can manipulate content on screens.

A series of intersecting lightsabers with a reflective floor creating a diamond light tunnel. Lighting and effects are manipulated by guest's movements as they walk through the tunnel.

Our in-house boutique photo company, The Art Booth, provides a variety of photo & video activations that allow clients to leverage their cultural equity & connect with their guests in meaningful and memorable ways. From our Classic Photo booth and SlowMo Video sets, to our animated GIF booth and Light Painting studio, we work closely with clients on customizing the experience to fit their brand or theme.

PRODUCERS

Founded by two friends from Texas, Clayton Lillard and Mateo Gutierrez are the chief creatives at IEC.
